Instructions to Book Reviewers

Book reviews published in *JCES* are intended to speak to a wide range of issues relevant to the scholarship of engagement. Reviews of books within the social sciences, natural sciences and math, medicine and health, the environment, law, business, philosophy, religion, and the arts and humanities are encouraged. All book reviews submitted to *JCES* should provide readers with a broad overview of the book, but should go beyond description to discuss central issues raised, strengths and limitations of the text, and current issues of theory and practice raised by the book that are germane to the subject

matter and engaged scholarship. Book reviews should introduce readers to literature that advances knowledge, provides practical advice, disseminates best practices, and encourages conversation and dialogue. Faculty members, administrators, staff members, students, and community partners are invited to offer their interpretations of the literature. If you are interested in writing a book review for *JCES*, please contact Drew Pearl (andrew.pearl@ung.edu) for a current list of books available to review. Reviewers are also welcome to suggest titles.
